HOW WE ARE SEEING COVID-19 SPREAD

- In the days prior to individuals becoming sick or while experiencing symptoms, individuals reported attending gatherings where people are not social distancing and not wearing masks.
- We continue to see spread between positive cases and other people living in the household/living unit.
- We are seeing more community spread, meaning individuals are unsure where they got the virus.
- Currently, there are 62 active public health investigations. Skilled nursing and assisted living facilities account for a number of positive cases.
- Taycheedah Correctional Institution is experiencing an outbreak, accounting for a number of cases.
